

Homework Policy

Homework allows you the chance to consolidate and practise your learning. It is expected that you read around the subject in your 'Physics for OCR' textbook as you work through each module. In addition, each week you will be set homework by your class teacher.

- It is your responsibility to catch up on any work missed due to absence, including the homework that was set on that date.
- All homework is to be completed to the best of your ability on neat A4 lined paper with your name clearly marked on each page.
- Homework that is handed in on time will be marked and feedback provided.
- Check on the Beechen Cliff website – a lot of the homework will be set here.

This will allow you to really understand the subject and reach your full potential in this subject as well as identifying the areas and concepts that you struggle with and need more help in.

Mr Matheson
Head of Physics
